<b>Standards Number:</b>	107
<b>Effective Date:</b>	05-01-18
<b>Revised Date:</b>	07-24-18
<b>Responsible Authority:</b>	Information Security Office
<b>Pages:</b>	4

**ACCOUNTABILITY/APPLICABILITY:**

System banners should be implemented on any UCF system. This standard is for system administrators and owners responsible for the implementation and maintenance of UCF systems. The standard outlines different banners for end user systems versus systems that perform administrative or critical functions that are not end-user in nature.

**STANDARDS STATEMENT:**

System banners are critical to inform potential users of a system of the terms, advisories, and consents under which they agree to use the system. These can include university policies and regulations as well as state and national laws. Further, it indicates their consent to monitoring of their usage. Finally, they outline possible consequences to violations and other unacceptable use. The UCF Information Security Office has developed the following statements to meet this need.

**STANDARDS:**

1. All banners must be placed such that users must read and agree before access to the system is granted.

2. The following banner text must be used for end-user systems:

### UCF System User Agreement

This UCF system is for authorized users only. Anyone using this system expressly agrees and adheres to the university's policies (including Acceptable Use Policies and information security policies), regulations, and all other applicable laws, including but not limited to Family Educational Rights and Privacy Act (FERPA), Health Insurance Portability and Accountability Act (HIPAA). Be advised, that your usage of this system implies consent to possible monitoring and auditing of activities on this system. If such monitoring reveals possible evidence of criminal activity, system administrators may be obligated to provide the evidence of such monitoring to University Administration or law enforcement agencies. Any violation may result in immediate loss of network and computer access privileges, seizure of equipment, or removal of inappropriate information posted on university-owned computers or university-supported Internet sites. In addition to these corrective actions, failure to comply with these policies and procedures may result in disciplinary action up to and including termination.

3. The following banner text must be used for systems that perform administrative or otherwise critical functions that are not end-user in nature.

**WARNING! THIS SYSTEM IS THE PROPERTY OF UCF. AUTHORIZED USERS ONLY.**

This UCF system is for authorized users only. Authorized users of this system expressly agree to and adhere to the university's policies (including Acceptable Use Policies and information security policies), regulations and all other applicable laws. Be advised, that your usage of this system implies consent to monitoring and auditing of activities on this system. If such monitoring reveals possible evidence of unauthorized use, violation of policy, or criminal activity, system administrators may be obligated to provide the evidence of such monitoring to University Administration or law enforcement agencies. Any violation, failure to comply with these policies or procedures, or unauthorized use of any kind may result in immediate loss of network and computer access privileges, seizure of equipment, and may result in disciplinary action up to and including termination.
